

Release Notes for Q2 2021

2021 - Q2

Exam Form Template Enhancements

Assessments Templates have been renamed Exam Form Templates and the process for creating an Exam Form Template has been streamlined. In addition, the configuration of scoring has been added to the Exam Form Templates, which will simplify Exam Form creation.

Exam and Exam Form Management Enhancements

The creation of Exam Forms has been enhanced. The creation of Exam Forms is being placed under Exams, and simplified with the addition of introduction screens and scoring configurations inherited from the Exam Form Template, as well as other changes to streamline the process of creating Exam forms.

JTA and Blueprint Imports

The ability to import a JTA or Blueprint into the system will be added.

Adjustable Blueprint Item Writing Parameters

Certiverse Administrators can both view and adjust the parameters that control blueprint-level automated item writing assignments. These parameters include: Target number of Forms; Number of scored Items per Form; and % Margin for bad items.

JTA Survey Without Account

Ability for SME to take survey using unique link sent to their email address, without requiring the user to Log-In or create account.

Item Writer Compensation System

The new Item Writer Compensation System tracks monthly activity related to item creation and item usage, as well as associated revenue for royalty payment models. The monthly item creation, item usage, exam delivery revenue, and type of item compensation are then used to create the data and reporting necessary to compensate item writers.

clients.
