

Release Notes for Q4 2021

2021 – Q4

Multi-Language Support of Exam Items and Exam Delivery

The ability to enter translated versions of items and exam screens, and allow the delivery of translated exam content. This also includes the toggling by test takers between the translated and original/source language.

Item Assignment for Review Enhancements

Several configurable options have been added to the system to streamline and adjust the Item Review process, including:

- Maximum failed reviews for items
- Passing reviews required to accept item
- Allow reviewer to review items they previously failed

JTA Create and Configuration Access for Organization Administrator

Organization administrators can now create a JTA and manage the JTA configuration on their own. This is part of Certiverse's ongoing effort to make the entire platform self-service for our clients.
